

PURKOTE™

12-0-24

Black Gypsum DG and SureTRX

75% Adaptive Nutrient Delivery with PurKote Technology

- The Next Generation of CRF technology developed by Pursell Agri-Tech
- Thinner more durable coating
- More Predictable nutrient release

29% Black Gypsum DG

- Humic acid from oxidized leonardite
- Increases Calcium and Sulfur without changing pH
- Provides organic Carbon

SureTRX

- Enhances plant nutrient uptake
- Contains NO Hormones or living microbes

Recommended application rate of 200 pounds per acre, will deliver:
.55 N, 1.1K, .23Ca, .13 Humic Acid and .08 pound of organic Carbon
