# NutriFUZE

## DIAMOND THRIVE

**Diamond Thrive**, a proprietary kelp formulation, is a nutritional enhancement formulation consisting of soluble complexes, plant extracts and organic acids. Each ingredient has been selected carefully to work in synergy with one another and initiate a plant health response for an extended period of time, promoting rapid root development. Diamond Thrive improves nutrient uptake which leads to healthier plants that resist environmental stress when used as directed. Use of a non-ionic surfactant will aid in surface coverage resulting in improved leaf absorption.

Manufactured by:  
**Diamond R Fertilizer**  
4100 Glades Cut-Off Road  
Fort Pierce, FL 34891-1573  
F001573

Weight per gallon: 8.62 lbs.

☐ 2.5 gal ☐ 30 gal ☐ 250 gal

**Derived From:** Ascophyllum Nodosum, Humic and Fulvic Acids and Protein Hydrolysate

**APPLICATION RATE:**
