## ACTIVATOR™

NO FOAM NONIONIC  
SPREADER-ACTIVATOR

### PRINCIPAL FUNCTIONING AGENTS

Alkyl Aryl Polyoxyethylene Glycols and  
IPA.....80%  
Constituents ineffective as spray  
adjuvant.....20%  
Total..... 100%  
All ingredients are exempt from tolerance  
under 40 CFR 180.

May be harmful if swallowed. Avoid breathing  
spray mist. Wash hands after use. Do not store  
near feed or food products. Avoid contact with  
eyes and skin. In case of contact with eyes, flush  
thoroughly with water and seek medical attention.  
Wash concentrate from skin with water.

**BEFORE USING THIS PRODUCT READ ALL  
PRECAUTIONS, DIRECTIONS FOR USE AND  
CONDITIONS OF SALE.**

### FIRST AID

**EYE CONTACT - IF IN EYES:** Rinse  
cautiously with water for several  
minutes. Remove contact lenses if  
present and easy to do then continue  
rinsing. Have the product container with  
you when calling a poison control  
center or doctor, or going for treatment.  
If eye irritation persists: Get medical  
advice or attention.

**SKIN CONTACT - IF ON SKIN OR  
CLOTHING:** Take off contaminated  
clothing and wash it before reuse. Wash  
with plenty of soap and water for  
several minutes. Call a poison center,  
doctor, chemical manufacturer,  
importer, or distributor to specify the  
appropriate source of emergency  
medical advice. If skin irritation occurs:  
Get medical advice or attention.

**INGESTION - IF SWALLOWED:** Unless  
advised otherwise by a poison control  
center or doctor, have person rinse mouth  
with water, if able. Do not give anything  
by mouth to an unconscious person. Call  
a poison center, doctor, chemical  
manufacturer, importer, or distributor to  
specify the appropriate source of  
emergency medical advice if you feel  
unwell.

**INHALATION - IF INHALED:** If breathing is  
difficult, remove person to fresh air and  
keep at rest in a position comfortable for  
breathing. If person is not breathing, call  
911 or an ambulance, and then give  
artificial respiration, preferably mouth to  
mouth if possible.

### MADE IN AMERICA

**LOCATIONS:** Winter Garden, Fort Pierce,  
Okeechobee, LaBelle, East Palatka,  
Homestead, Florida

**Net Contents: 2.5 Gallons  
(9.46 liters)**

**CAUTION: KEEP OUT OF REACH OF CHILDREN**

## GENERAL INFORMATION

ACTIVATOR is a water-soluble spreader-activator, non-ionic type surfactant, designed for use in improving wetting and deposition, of pesticide spray on leaf surfaces. ACTIVATOR decreases the surface tension of the spray droplets, allowing for increased spreading and more uniform coverage, on leaf and stem surfaces.

## DIRECTIONS FOR USE

ACTIVATOR can be used with agricultural, industrial, forestry, aquatic and turf products, that recommend a wetter-spreader type adjuvant. Add pesticides and other related products, to the spray mixture before adding ACTIVATOR.

NOTE: Always follow pesticide label recommendations.

## APPLICATION OR USE RATES

**HERBICIDES:** ACTIVATOR is recommended for use at a rate of 0.5 to 2 pints per 100 gallons (0.25 - 1 liter per 400 liters) of spray, with most post-emergence herbicides, which recommend the use of a nonionic surfactant (unless otherwise directed by the herbicide manufacturer).

**DEFOLIANTS:** ACTIVATOR is recommended for use at a rate of 2 pints per 100 gallons (1 liter per 400 liters) of spray, when applied at an application rate of 10 gallons per acre or more (100 liters per hectare or more). Use a rate of 4 pints per 100 gallons (2 liters per 400 liters), when the application is less than 10 gallons per acre (100 liters per hectare).

**DEFOLIANTS: INSECTICIDES, FUNGICIDES AND ACARICIDES** ACTIVATOR is recommended at a rate of 2 to 8 oz. per 100 gallons (50 - 250 ml per 400 liters) of spray, to enhance the wetting of insecticides, fungicides or acaricides.

**SOIL PENETRANT:** ACTIVATOR should be applied at a rate of 8 oz. per 1,000 square feet (250 ml per 100 square meters) of turf. Applications should be made in a minimum spray volume of 12 gallons of water per acre (120 liters per hectare).

## STORAGE AND DISPOSAL

**Storage:** Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

**Disposal:** Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org).

## CONDITIONS OF SALE

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk or any such use.
