

AquaFUZE

CLARIFY WATER CONDITIONING AGENT

PRINCIPAL FUNCTIONING AGENTS

Ammonium sulfate, phosphoric acid and tricarboxylic acid..... 60.1%
Constituents ineffective as spray adjuvants..... 39.9%
TOTAL.....100%
All ingredients are exempt from tolerance under 40 CFR 180.

Avoid contact with skin, eyes or clothing. Do not take internally. Do not eat, drink, smoke or chew gum while using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. In addition, follow precautionary statements on all products used with this material. Clean affected clothing, shoes, and protective equipment before reuse. Personal Protective Equipment: Wear chemical-resistant eyewear and gloves, long-sleeve shirt and pants and shoes and socks.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

BEFORE USING THIS PRODUCT READ ALL PRECAUTIONS, DIRECTIONS FOR USE AND CONDITIONS OF SALE.

MADE IN AMERICA

LOCATIONS: Winter Garden, Fort Pierce, Okeechobee, LaBelle, East Palatka, Homestead, Florida

Net Contents: 2.5 Gallons (9.46L)

CAUTION: KEEP OUT OF REACH OF CHILDREN

AquaFUZE

GENERAL INFORMATION

Hard water and high pH can minimize the effectiveness of certain pesticides. Ammoniacal nitrogen is known to be an effective uptake enhancer for herbicides by several plant species, by conditioning the spray water and providing a source of ammoniacal nitrogen, this product positively affects mixing and spray applications.

Precautions: This product lowers pH and should not be used with products such as copper fungicides or products which warn against lowering the pH unless experience has shown performance to be acceptable. Do not use on aquatic sites. Do not apply this product in such a manner as to directly or through drift, expose workers or other persons. Always jar test with tank mix herbicides prior to mixing. Use the directions from the products used in the tank mix.

DIRECTIONS FOR USE

If label does not specify the order of addition for water conditioners, use the following:

Add water to tank. Add products in order specified on label. CLARIFY can be added at any point after any WP or other solid formulations have been well dispersed, even after addition of vulnerable products such as glyphosate. CLARIFY will break up any interactions that have previously occurred once it has been added.

NOTE: This product does not contain a surfactant. If a pesticide label recommends the addition of a surfactant, use of a separate product containing surfactant is recommended.

RECOMMENDED USE RATES

Application Type	Rate Information
Ground	Apply at the rate of 1 to 4 pints per 100 gallons (1 to 4 teaspoons per gallon or 0.5 - 2 liters per 400 liters) of spray (0.125 - 0.5% v/v).
Aerial	Use 2 to 4 pints per 100 gallons (2 to 4 teaspoons per gallon or 1 - 2 liters per 400 liters) of spray (0.25 - 0.5% v/v).
Water Conditioning	Use 1 to 5 pints per 100 gallons (1 to 5 teaspoons per gallon or 0.5 - 2.5 liters per 400 liters) of water as a general use water conditioning agent for pH reduction and hard water sequestering.

STORAGE AND DISPOSAL

STORAGE: Store in cool, dry place. Store in original container. Do not contaminate water.

DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. Containers may also be disposed of in a sanitary landfill.

PERSONAL PROTECTIVE EQUIPMENT: Wear long-sleeved shirt and long pants, shoes plus socks when mixing or applying,

CONDITIONS OF SALE

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk or any such use.
