

AquaFUZE

EXTERMINATOR[®]

DEFOAMER • ANTIFOAM

PRINCIPAL FUNCTIONING AGENTS

Dimethyl, methylhydroxypropyl,
ethoxylated propoxylated siloxane;
Polydimethylsiloxane; Silica.....10%
Constituents ineffective as spray
adjuvants.....90%
TOTAL.....100%

All ingredients are exempt from
tolerance under 40 CFR 180.

Harmful if swallowed. Avoid
breathing vapors or spray mist. Avoid
contact with skin. Wear long-sleeved
shirt, long pants, socks, shoes, and
chemical resistant gloves. Avoid
contact with eyes. Keep from
freezing.

FIRST AID

If Ingested: Get medical attention
immediately. Do not induce
vomiting, except by physician's
order.

If on skin: Wash with soap and
water until removed. If irritation
develops, consult a physician.
Remove and launder contaminated
clothing before reuse.

If in eyes: Flush immediately with
water for 15 minutes. If irritation
develops, get medical attention.
If Inhaled: Remove to fresh air. If
breathing is difficult, have trained
person administer oxygen.

**BEFORE USING THIS PRODUCT
READ ALL PRECAUTIONS,
DIRECTIONS FOR USE AND
CONDITIONS OF SALE.**

LOCATIONS: Winter Garden, Fort
Pierce, Okeechobee, LaBelle, East
Palatka, Homestead, Florida

Net Contents: 1 U.S. Quart (0.95L)

CAUTION: KEEP OUT OF REACH OF CHILDREN

AquaFUZE

GENERAL INFORMATION

EXTERMINATOR is a proprietary silicone antifoam emulsion designed for prevention or suppression of foam formation in aqueous solutions.

The functional properties include quick dispersibility, slight insolubility, relative stability, and spreadability in ionic solutions.

EXTERMINATOR is very aggressive in tank mixes, offering antifoaming qualities when used in a premix or defoaming characteristics on already existing foam. All emulsifiers used in this formulation are non-ionic, offering superior uniformity and compatibility.

This product cannot be used for aquatic applications.

NOTE: KEEP OUT OF LAKES, PONDS OR STREAMS. DO NOT CONTAMINATE WATER BY CLEANING OF EQUIPMENT OR DISPOSAL OF WASTES.

USE RATES

Use EXTERMINATOR at 1/2 to 2 ounces per 100 gallons (20 to 65 milliliters per 400 liters). For small tanks, add small squirts (approximately a teaspoon at a time) until foam is controlled. It may be necessary to adjust the amount used according to individual conditions.

NOTE: it is always best to add to tank mixture before foam has already formed.

STORAGE AND DISPOSAL

Store in a cool dry place. Do not reuse empty container. Dispose of container in a safe manner in accordance with federal, state and local regulations.

CONDITIONS OF SALE

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk or any such use.
