## FOAM MARKER

### FOAM MARKING AGENT

#### PRINCIPAL FUNCTIONING AGENTS

Surfactants, stabilizers and solvents.....	35%
Constituents ineffective as a spray adjuvant.....	65%
Total.....	100%

May be harmful if swallowed. Causes skin irritation. Causes serious eye irritation. May be harmful if inhaled. Read label before use. Keep container tightly closed. Keep only in original container. Avoid breathing dust/fume/gas/mist/vapors/-spray. Wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.

**BEFORE USING THIS PRODUCT READ ALL PRECAUTIONS, DIRECTIONS FOR USE AND CONDITIONS OF SALE.**

#### FIRST AID

**EYE CONTACT - IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. Have the product container with you when calling a poison control center or doctor, or going for treatment. If eye irritation persists: Get medical advice or attention.

**SKIN CONTACT - IF ON SKIN OR CLOTHING:** Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice. If skin irritation occurs: Get medical advice or attention.

**INGESTION - IF SWALLOWED:** Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice if you feel unwell.

**INHALATION - IF INHALED:** If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

#### MADE IN AMERICA

**LOCATIONS:** Winter Garden, Fort Pierce, Okeechobee, LaBelle, East Palatka, Homestead, Florida

**Net Contents: 1 Gallon (3.785 liters)**

**WARNING: KEEP OUT OF REACH OF CHILDREN**

## GENERAL INFORMATION

FOAM MARKER is a highly visible foam marker, that allows the user to mark the edges of spray rows and areas in order to avoid over-or under-application of pesticides and other chemicals. FOAM MARKER is a sturdy foam marker designed to work well in a wide range of environments. The foam forms good, durable dollops that stand up well to wind and heat. FOAM MARKER contains stabilizers so that the foam endures well in all types of water and under many different conditions.

## DIRECTIONS FOR USE

Mix FOAM MARKER per the directions for the equipment being used. FOAM MARKER should be mixed with the water and stirred GENTLY to ensure thorough dispersion. Vigorous stirring will form unwanted bubbles in the foam tank. A lack of any mixing may form inconsistent foam. Start at a lower rate depending on conditions and test the foam by spraying it out. Work the amount of foam marker upward until the right foam quality is found. Use FOAM MARKER on turf and ornamentals in mild conditions only. Stressed plants such as turf in drought areas or in high heat and humidity may turn yellow or brown underneath the foam. Usually, the effect is temporary on well-irrigated plants. Do not use or pour near sources of ignition.

## USE RATES

FOAM MARKER is used at a rate of 1 gallon of FOAM MARKER per 80 to 120 gallons of water (4 liters per 350

to 400 liters). The lower rate is needed when conditions are ideal (lower temperatures and wind speed) and the water is soft. More FOAM MARKER is required when water is harder, weather is hotter or other more severe conditions occur. Exceeding the recommended levels will not necessarily make the foam more stable, as an adequate amount of water is required to form long-lasting foam.

## STORAGE AND DISPOSAL

**Storage:** Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F. If product freezes, thaw thoroughly above freezing and shake well before using. **Disposal:** Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org).

## CONDITIONS OF SALE

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk or any such use.
